J. B. WHITE

A new bridge across Little River seems out of the question at least for several years. I was talking to a prominent official Friday and he said, "It is strange how the Highway Department treats Milam County. The Commission never gives us anything we ask for and when it does do something for the County it is usually something that falls far short of what we need." I had not thought of it in this light but the record seems to bear this out. It seems absurd on the face of it to spend around \$300,000 for a trestle across Little River bottom and to leave the old bridge, which has become a death trap, the same. Flood conditions are becoming increasingly harmful to the East River road and it is most desirable that an all weather road be maintained across the bottom but it does seem out of proportion to justice to contemplate an expenditure of so large amount without taking into consideration the bridge. Highway 77 and Highway 36 are vastly more important. The Commission has allotted a small amount of money for Highway 77 but 36 remains without attention and a certain portion of this road from Buckholts to the Bell County line is badly in need of repairs. As we understand it, we asked for a new bridge and we asked for 77 and 36 and even went so far as to spend the taxpayers money at the request of the Highway Commission for right of way from Highway 77 to the Port Sullivan bridge and they built us a topped road from Watts Smith to Maysfield. Until the people became thoroughly aroused over this apparent discrimination, we will always be found in the position of having to take a few hand outs from the Commission.

The Legislature has for consideration a bill to establish a branch of the Poultry Department of Texas A & M College at Smiley for a scientific study to improve the quality of fried chicken. Some years ago the Chamber of Commerce at Nixon employed the services of a poultry expert. His salary was paid partially by the Chamber of Commerce and partly by the local school board. His duties were two-fold but mainly they wanted to establish poultry on a commercial basis. Three years ago more than three million broilers were sold from the farms at Smiley, four miles east of Nixon. Eggs always command a good price. Trucks are sent as far away as Missouri to bring eggs back to Smiley to supply the vast hatcheries and for the production of broilers and fryers on a large commercial basis. Out at Brady in West Texas there has been organized for several years a Turkey-Egg Producers Association. They sell nothing but turkey eggs and these eggs are shipped to all parts of the United States for commercial hatching now that turkeys are being produced on a grand scale through the hatcheries. Cameron has a much better foundation already than these communities which have succeeded so well in this business. I am told that one of the large produce houses of the United States is anxious to see poultry produced on a commercial basis here. I think that business men should become interested in this project. Business men generally have failed to recognize their obligations through the Chamber of Commerce and it seems to me the time is here when business men should take an interest not only in the Chamber of Commerce but in bringing about a greater income for Cameron. It is no excuse to say

Opportunity Knocks For Someone Who Wants to Get Into Profitable Business With No Risks

Here is an opportunity that will mean independence for someone who will undertake it.

The Fairmont Creamery Company of Cameron through its manager, Mr. Bryan, is seeking a reliable man with a small acreage plot or a farm who wants to enter the poultry business on a commercial basis.

The Company has houses, brooders and other equipment plus the baby chicks, feed and finance to start the right party out on the road to financial success.

A set up to accommodate as many as 7,000 baby chicks is now available to the right party.

The man who accepts this offer becomes the No. 1 pioneer in what will eventually be one of the major industries of Texas in this community. If this opportunity is accepted the first step will have been taken in a commercial poultry program that will give to poultry owners

financial independence and revolutionize the community income.

It is a known fact that it costs approximately 17 cents to produce a broiler for the market. Right now these broilers are bringing about 36 cents.

Fairmont Creamery Company is ready to finance this kind of program and will furnish the feed and all necessary expense incident to raising these chicks and will market them charging only a small commission for sale and turning the profit back to the owner.

If you are interested get in touch with Mr. Bryan at once. It should be remembered that four crops of broilers are produced each year and the opportunity for profits are immense.

In addition to profits on the chicks eggs will bring from 25 to 30 cents if produced from recognized brands of chickens for hatching in the commercial hatcheries.

YOEMEN WIN COUNTY BASKET CHAMPIONSHIP

The Yoemen won the Basketball Championship of Milam County Saturday night in a close game with Buckholts 31 to 39.

The Buckholts team, directed by Hugo Horstmann, superintendent, is one of the finest aggregations of basketball players seen on the local court this year.

The score indicates that the Yoemen had to extend themselves and were able to defeat the Buckholts team only after the sheerest sort of desperate play.

The game was a grand finale to a grand tournament and now Cameron will represent the County at the District meet.

The Herald trophy, one of the most elaborate cups ever given for an athletic event here, will be presented to the Yoemen at the chapel hour on Wednesday at Yoe High School by Charles M. Hicks, director of the tournament.

EX-SERVICE MEN ARE CALLED TO REGISTER

The Registration Day Proclamation by national commander, Milo J. Warner, for ex-service men to determine their share in national defense has been released here by E. W. Streetman, post commander.

On February 21st and 22nd all ex-service men under the jurisdiction of Edwin Hardy Post No. 9, will be asked to register at the court house where the post will arrange a detail of clerks.

The registration is not compulsory and former soldiers will be doing their share on a voluntary basis.

The following is the Proclamation:

WHEREAS, by action of the 1940 National Convention and the National Executive Committee of American Legion, a complete indexing and classifying of all members of the American Legion, primarily, and of World War veterans generally, is ordered as a means of listing individual qualifications for voluntary national defense service in the event of the onset of a national emergency.

WHEREAS, the preparation of the material and culmination of the plans for such organization-wide American Legion and veteran registration causes a day in the month of February, 1941, to be most suitable for such registration purposes; and

WHEREAS, no more appropriate day for the undertaking of such a patriotic enterprise on the part of the American Legion can be conceived than that of the 209th anniversary of the birthday of the Father of our Country, George Washington, on February 22, 1941.

NOW, THEREFORE, I, Milo J. Warner, national commander of the American Legion, do hereby urge that the 11,700 Posts of The American Legion do publicize and utilize the day of February 22, 1941, as American Legion Registration Day and attempt during the course of that day to complete the questionnaire-registration forms, prepared by the national organization of the American Legion, for all their membership and for such other World War veterans who may desire to participate in such registration.

WILL BUILD NO BRIDGE OVER LITTLE RIVER HERE

The State Highway Department will not consider a new bridge across Little River at this time, in fact indicated early this week that no bridge will be built at any time within the next few years.

The attitude of the Highway Department is unchanged.

Small concessions are made to Milam County at intervals to placate public sentiment or to satisfy insistent demands of committees but no major expenditure or public improvement of note seems possible under present conditions.

Generally, it was said, that the Highway Department will be concerned primarily with construction of highways considered as essential to national defense. Locally Highway 77 is deemed to be essential but there is no prospect of its receiving any such consideration at this time.

It is possible the Highway Department may have in mind a trestle construction above flood water heights and in this case the expenditure will be considerable and in the main wasted resources.

Any construction job on the trestle that will cost \$300,000 seems a high price to pay when other things in Milam county are needed so badly. This was the consensus of opinion from a number of business men interested Friday.

Eventually a bridge will be built, but there is no prospect of getting it now.

Highways 77 and 36 are vastly more important. Recent traffic accidents have occurred on the bridge approaches and not on the trestles. If the construction is authorized the trestles are to be made standard in size.

Coach L. C. Wood Is Re-Elected Here

Coach L. C. Wood was re-elected for a two year term as head football coach at Yoe High School by the Board on Thursday night.

Coach Wood teaches and also directs athletics generally.

At the same time the Board retained the services of John Sapp of the Sapp Motor Company to instruct students in a course in mechanics provided for under the National Defense Act.

Sheriff White Asks Statement of Facts In Punchard Escape

The recent escape of Alfred Punchard has caused some mis-informed comment and Sheriff Valter White has requested the Herald to make known certain facts, regarding this case.

It was said that some criticism has been directed at the Sheriff's office because Punchard was not taken immediately to the penitentiary.

After Punchard's conviction, the Sheriff, prosecuting attorney, and defense attorney went to the office of the District Judge and the Sheriff was instructed to keep the negro in jail because the defense council must be allowed time to file an appeal.

The attorney, Roy Baskin, for the negro gave notice that an appeal would be taken and it was understood that two days are allowed and Punchard escaped from the jail shortly after midnight Sunday.

Sheriff White was obeying instructions and he said that no criticism is due anyone because it was just an unfortunate occurrence.

The negro had not been sentenced. Sheriff White said reports had reached him that it was being said by some that he has a negro jailer. This of course is untrue. The negro is a cook to prepare food for prisoners and is not the jailer.

The Commissioners' Court has ordered repairs on the jail and Mr. White who recently married will soon move into his new quarters and will be on duty himself and will make suitable provisions to avoid any further occurrence such as the Punchard escape.

"We are after the negro and we will catch him," said the Sheriff.

Rufe Cryer of Val Verde transacted business in Cameron Monday.

Rev. J. W. Mills to Begin Sermon Series At Methodist Church

Rev. J. W. Mills, pastor of First Methodist Church is soon to begin a series of important sermons at his church.

On Sunday, March 2, he will begin a fifteen weeks program with a series of sermons. The program is known as a Christ centered campaign. The sermons will embrace in general the subject, "The Teachings of Christ" at the morning services and in the evening Rev. Mills will preach on "Phases of the Life of Christ."

Rev. Mills said today that the purpose of the campaign is to enlist the entire membership of the church for a better attendance. He has already selected group leaders for the 12 groups in which he has divided his congregation, to assist in carrying out this plan.

In the church are 638 members but a number are not living in the City limits while some will be unable to attend on account of ill health. It is estimated 463 members will attend this series of meetings.

The Herald will co-operate with Rev. Mills to bring additional information regarding this program.

City Stops Payment To Band Director When School Board Stops Gym Payment

When the High School Gymnasium was completed three years ago the School Board by agreement with the City Council had pledged \$1000 per year to retire the debt.

The City agreed to finance the deal and accepted the Board's offer in good faith.

The School Board made two annual payments then notified the Council it would not continue to pay its part of the obligation.

The City Council when notified by the Board of its intention to back up on its agreement discontinued payment of \$100 per month out of the band and park tax for the salary of the band director. In the exchange the City profited \$200 per year.

Under the law Cameron operates without special charter and the School District is coextant with City limits and under strict interpretation of the law the School Board has no authority to assume bonded indebtedness. If this fact had been known in the beginning no such arrangement could have been made with the City Council.

Whether the gymnasium would have been constructed no one can now state but it is a vital part of the equipment of the school system and must now be paid for out of City Funds.

1933 POUNDS CASTOR BEAN PRODUCED HERE

Castor bean raised by Milam County farmers in co-operation with an experimental program sponsored by the Texas Power & Light Co., totaled 1933 pounds for the 3 1-2 acres placed under cultivation, John B. Henderson and D. K. Hall both of Cameron leading the production totals with 957 and 389 pounds, respectively according to J. Albert Young, Jr., District Manager for the T. P. & L. Company here.

Other Milam County participants were J. A. Henderson, Ed Pagel and Milton Boone.

The castor bean crop was gathered by the farmers last fall and stored in dry places until a specially-built thresher operated by a representative of the power company was able to arrive in the Milam County area. The sponsors of the experiment furnished castor bean seed and agreed to thresh and help dispose of the crop in order to test the possibilities of a new crop for Texas farmers.

The Texas Power & Light Company paid two cents per pound for the beans, which is slightly higher than the present New York price. The price of Brazilian castor beans in New York has ranged from \$45 to \$95 per long ton (2 cents to 4 1-2 cents per pound) in the last three years, according to a report from the United States Chamber of Commerce.

WITH THE BAPTISTS

Richer lives are made in God's house. This is proved by the faithful who attend every service. It's an inspiration to see them getting out of cars to hear their footsteps on the side walk, to see them getting there from every direction, to see children, fathers and mothers smilingly happy as they enter the church buildings. The way they enter makes one feel that they are glad to be alive, glad they are a child of God, glad Christ has saved them, glad they are Baptists, and glad they can serve in any capacity.

The WMU sponsored a Mother and Daughter Banquet Thursday Night.

"Give Them to Eat" was the theme of this service. The delicious food was only incidental for spiritual food and training for our young people is the divine aim of our WMU. A most inspirational program was rendered, and the enthusiasm with which this banquet was attended will give new impetus to our work.

Our people had a wonderful time at their Valentine Parties, yes sir, they were quite "hearty" affairs. It is hoped that the enthusiasm of youth will always be directed through church channels.

Our church voted to send a car of young people to Austin Tuesday to participate in the 5,000 Young People's Parade against the sale of intoxicating liquors and also race track interest.

CHRISTIAN SCIENCE SERVICES

"Mind" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientists, on Sunday, February 23.

The Golden Text is: "It is God which worketh in you both to will and to do of his good pleasure" (Philippians 2:13.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "For God, who commanded the light to shine out of darkness, hath shined in our hearts, to give the light of the knowledge of the glory of God in the face of Jesus Christ" (II Corinthians 4:6.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Science reveals only one Mind, and this one shining by its own light and governing the universe, including man, in perfect harmony" (page 510.)

OUR TOWN

(Continued from page 1)

that the Chamber of Commerce has no program. Business men belong behind the wheel. If we can not sponsor a program such as the poultry industry we are falling far short of our duty to the future of our income.

(From Thursday's Daily)

Tomorrow, Friday, February 14 is St. Valentine's Day. Like many fictional interpretations of celebratory characters, this day has been one of merriment for centuries. In the old days when we gathered around the confectionary and drug store prior to Valentine day we sent satirical missives to those we didn't like but our amatory Valentines brought out the best in us even though romantic. Little is known of St. Valentine. He is believed to have been a Bishop of the Catholic faith and suffered martyrdom under Claudius II at Rome. Some say he was slain under Aurelian in 271 A. D. on February 14th. There is an old idea in the world that birds begin to mate on February 14th and out of it grew a practice among young people who choosing their "Valentines" on this day, sent messages of love and generally they were anonymous. The day was observed in Great Britain for centuries but has fallen into disuse. In the United States it is an occasion for much amusement among children but its romantic appeal still finds millions of adults in America sending missives or buying gifts of candy and other things for those they love. A similar custom once prevailed in France on the first Sunday in Lent but has since fallen into disuse. Usually the town's meanest man and ugliest woman gets some kind of Valentine from someone with a yen for devilment but on the whole it is a day for romance and expressions of appreciation. Incidentally there are a number of places in Cameron where you can buy a nice box of candy or a Valentine to suit the depth of your expression on this day when the birds inaugurate the romantic appeal of Springtime.

The Democracies are filled with gloom today because Adolf Hitler has apparently concluded conquest of the entire continent of Europe with the exception of Spain. This country may be expected to fall into the Axis bag within a few days. The success of the dictators has made many people criticize the processes in Democratic countries. Looking at the map of Europe as it is at this hour we can see how it is possible for public sentiment to be weary with delay. Belief arose in the Balkans and other countries that effective aid to Britain would not be made by the United States. This fact alone gave Germany added power to throw into her diplomatic punches. Whatever the developments in the future, it is certain that American delay, occasioned by lack of sympathy with the British cause in high places, has caused a

loss of faith for our way in dealing with these problems. Somehow if we had found a way to face the facts our situation and that of our ally, Britain, might have been different. There can be little doubt that England has lost heavily in the developments during the last 24 hours when Turkey stepped aside to give aid to Germany. The danger to this country is greatly increased and so far as you and I know a few peaks of New Deal philosophy in the form of concrete facts are about all we can inventory at the moment. We still have Roosevelt, Farm Relief, Relief, and all of the initialed agencies, a national debt big enough to be recognized by every citizen and as long as we have a Governor who will go out and kill buffalo to feed the people, we should have no qualms as to the future. If we could get a conference now of the brain trusters to rehabilitate rehabilitation and Congress could be prevailed upon to pass a few appropriation bills, we might succeed in establishing the premissence of Democratic speed.

Sergeant Braisington, army recruiting officer stationed in Cameron, has made an enviable record. Not only has he looked after Uncle Sam's business but has been helpful to many young men seeking enlistment in the army. Sergeant Braisington came to Cameron in the Fall of 1940. So pleasing has been his conduct here that citizens are already thinking of him in terms of permanent resident. Wednesday, Sergeant Braisington was guest speaker at the Rotary Club luncheon discussing recruiting service and the advantage of enlistment in the army. Cameron has been quick to recognize those who get the job done and also finds a way to show its appreciation to those individuals who make this fine city their home, even for a short period of time as has Sergeant Braisington. During recent months he has sent more than 120 men to the army, all of them are now allocated to the various branches and during his recruiting service here he has only had three men rejected. Members of the Rotary Club were pleased to have the Sergeant discuss various phases of re-armament and the training program which in time will produce a reserve army of approximately five million men. So today Sergeant Braisington gets the nod and with it a big bouquet from the people of Cameron who recognize in him a man who not only gets the job done but is a credit to the United States army.

Aged Man Tells Story Of Hardships While on Trip Through Cameron

Rudolph W. Flemkey, 71, a native of Poland but for many years a citizen of the United States, was in Cameron Tuesday on his way to the Salvation Army Home in Houston.

Flemkey told the Daily Herald a story of great misfortune which has to do with a recent experience while riding with a man from Richmond to Waco.

On the lapel of his coat Flemkey is wearing a large button photo of President Roosevelt. He was born in Glugon, Poland, on December 28, 1869, and speaks six languages.

Here is the story the aged man told the Daily Herald: His left leg was broken in three places in an accident that occurred in Milam county at Burlington around midnight on December 17, 1940. Flemkey said the man in whose car he was riding is named Ralph W. Wallace, a resident of Houston.

According to Flemkey, he asked Mr. Wallace for a ride at Richmond and wanted to get off at Bellville but Mr. Wallace refused to let him out of the car when they reached Bellville, showing him two officers' badges, one indicating that he was a member of the police force of Houston, No. 202, and the other showing that he was a deputy sheriff of Harris County. Wallace insisted that he stay with him, according to Flemkey, promising to take him to Waco and pay him hotel bill if he would continue with him just for the sake of having company on the trip. Flemkey travels for certain religious organizations and thought he could solicit funds at Waco as well as Bellville and agreed to continue with Wallace.

At Caldwell, said Flemkey, Wallace stopped his car and got some drinks and lunch where he had difficulty with a man named Richmond who is believed to live in Cameron. Richmond left for Cameron and Wallace followed him, and here, according to Flemkey, he chased Richmond all about the city and when he caught up with him there was some difficulty in the course of which there was gun-play on the part of Wallace. Flemkey also said the City Marshal of Cameron ordered Wallace to leave Cameron, threaten-

ing to lock him up if he did not, and Wallace and Flemkey left for Waco. Just before reaching Burlington, where there is a sharp curve, Wallace was traveling at such a rapid rate of speed the car ran off the road, jumped a ditch and overturned, breaking Flemkey's leg.

Since the night of December 17 Flemkey has been in Rosebud hospital.

Fred Allen Victor In Fight But Loses To the Judges

Fred Allen, the only Cameron boy to fight his way to the State Finals in the Golden Gloves tournament, was denied the decision over Carney Boyd of Olney when the judges arbitrarily awarded the decision to his opponent.

The Temple Telegram in reporting the finals has the following to say: "Surprising Fred Allen, darkhorse lightweight of Temple's team won tonight's semi-final bout with Carney Boyd of Olney, but this time he didn't get the decision. Apparently making up for the decision of Saturday night when Allen won a doubtful verdict. The judges turned the tables and took Fred out of the tournament."

"It was the consensus of the boys in the press row that Allen won a clear verdict. He drove his man to the ropes several times in the first two rounds, had him out on his feet in the first and kept pounding his head and stomach throughout the fight. He weakened slightly in third round and may have lost that round on points, but it appeared that he clearly took the first two."

"This fight was by far the best Allen ever has fought. His punch had sting and his opponent's longer reach bothered him not at all. It was a game and courageous exhibition which was a great credit to the Cameron boy."

Today's Lesson in Flag Etiquette

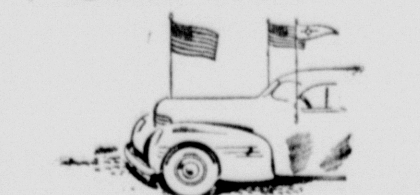

Never let the American flag touch the ground or the floor, or trail in the water.

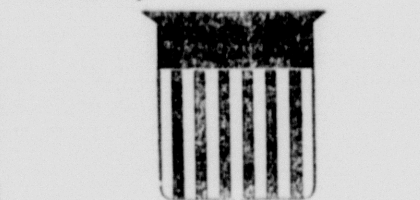

Make sure the flag never touches the ground when placed in a fixed position upon a grave.

When used to cover a casket, the flag should be placed so that the stars are at the head in the upper right hand corner (over the heart) looking from the foot. The flag should not be lowered into the grave nor allowed to touch the ground.

The flag should never be draped over the hood, top, sides or back of a vehicle, train, automobile or boat. When displayed on a motor car, the staff should be attached firmly to the chassis or clamped to the radiator cap.

The shield of the United States has 13 vertical stripes, 7 white and 6 red, topped by a field of blue without stars.

Herald Gets Letters Protesting Action Cameron School Board

Action of the School Board in re-electing the Superintendent has not met with approval in Cameron.

The Herald has received a large number of protests from citizens, some wish to be quoted and some wish not to be quoted. Included in these protests are a number of letters.

This may not be understood but so many things are not understood, that it makes little difference at the present moment. People have been sending communications to newspapers for centuries. Logically these protests should be left with the School Board but we welcome them as a normal development and a natural sequence of disapproval of actions of men in public places.

The Herald has not asked for any protests whatsoever but is now confronted with these protests and publication has been requested. It is no more the duty of the Herald to publicly protest the action of a political body than it is any other citizen.

Relief can be obtained at the ballot box. Some years ago the citizens asked for a system of naming school trustees by ballot. If the citizens do not like what the present members of the School Board are doing they have the remedy in the forthcoming election and for the time being the Herald will take no part in this discussion but reserves the right to express its opinion on any public question whenever it chooses.

Some of these letters are bitter and severe in their import and we prefer not to publish them at this time.

**Not if it's One of these Four New Additions to the
BUICK SPECIAL Line that Compact Automobile
Bigness into Fewer Bumper-to-Bumper Inches**

HERE of late the modern automobile has been giving a pretty good imitation of a man getting up in the morning.

It has stretched and s-t-r-e-t-c-h-e-d—until today you almost have to have a shoehorn to get a car of any size tucked away in the family garage.

We thought something ought to be done about that.

So today in Buick dealers' showrooms you'll see four new models, additions to the 1941 Buick SPECIAL line.

They are typical Buicks on every count—steady, tireless travelers with a big 115-hp. Buick FIREBALL straight-

eight under their bonnets.

But by the simple step of compacting all this ability, goodness and value on a 118-inch wheelbase, we've trimmed inches off the over-all length—and dollars off the cost.

We're passing those dollar savings on to you, which makes three reasons for going to see these honeys now: You'll go for their ability—your wife will go for trim size and easy handling — and both will stand up and cheer for the easily-reachable price.

Registration of local available manpower for national defense jobs continues at top speed in the Cameron office of the Texas State Employment Service, R. C. Moody, manager said today.

New applications totaled 116 in Cameron during January and 27 people had renewed their applications.

A total of 31 jobs were filled through the Cameron employment office last month.

Claims for Job insurance were on the down grade, said Mr. Moody which indicates that employment is on the up grade. As a comparison 120 initial claims were filed in January 1940 and 77 were filed in January 1941.

Representatives of the service made 68 field visits in January to interview employers regarding openings in their firms and as a result secured orders for more than 30 workers.

Many others, however, know how the pain of functional dysmenorrhea due to malnutrition are helped by the proper use of CARDUI.

GREEKS SMASH THROUGH ON EIGHTY MILE FRONT

Twenty-two towns in Germany felt the devastating blows of the British air forces last night and great fires were seen raging over a wide area of the Reich.

A new American fighting ship called the American Eagle was placed in action for the first time in a defense of London when the Nazi attempted to carry out a mass attack through the day and night. The plane was said to be by far the best thing in the air.

The British claim they are fast gaining superiority in the air but it is known that the Germans still have a large number of planes.

In Africa the British were almost within striking distance of Tripoli, the last remaining important seaport occupied by the Italians.

In Albania the Greeks were reported to have begun direct attack on an 80 mile front and have taken 7,000 Italian prisoners including a large number of officers.

It was said the Greeks are pushing the Albanian campaign at top speed in order to crush the Italian army before aid can come from Germany.

Germany's absorption of the Balkans was regarded as practically certain now that Yugoslavia has been brought into the sphere of Axis influence. Turkey it is believed will not fight and that will give the Germans and the Italians control of the Balkans with Russia standing aside watching the Nazi take over the continent of Europe.

In the Far East it was said that the Japanese had taken a more conciliatory attitude when faced with joint action by the United States, Great Britain.

Superintendent Vote Not Unanimous Here

When the School Board elected a Superintendent on Thursday night the vote was not unanimous.

Drayton McLane, minority board member, said a report had been circulated in Cameron that the vote was unanimous. He requested the Herald to state that he cast his vote against re-electing the present superintendent.

The vote on the two year contract was 4 to 1 with one member absent.

Present for the board meeting were J. C. Martin, president; Dr. T. E. Crump, H. H. Stedman, Ray Burke, Mrs. W. O. Triggs and Mr. McLane. The other member of the board is O. B. Horstmann who was absent.

Mr. McLane is sometimes referred to as the minority member of the board because he has often opposed present policies.

LIFE SENTENCE GIVEN ALFRED PUNCHARD HERE

Alfred Punchard, negro, was given a life sentence in prison by a jury in District Court here at 10 p. m. Friday when a jury found him guilty of burglary and also sustained a clause in the indictment which charged him as an habitual criminal.

Criminal District Attorney, W. A. (Bill) Morrison, sought to convict the negro under the terms of the habitual criminal statute and asked the jury to find him guilty of the life sentence which is the maximum penalty.

The Grand Jury cannot return an indictment against a defendant as an habitual criminal but the indictment for burglary may carry that implication if the record of the men warrants.

Punchard had been twice convicted

and was sent up from Milam in 1928.

Mr. Morrison had worked for several weeks on this case. He said he felt the negro was an habitual criminal and took upon himself the arduous duties of bringing about a conviction of this type and thus has placed the negro in prison for life.

Punchard was freed temporarily recently when an indictment was quashed but he was re-indicted.

Roy Baskin, Cameron attorney, defended Punchard. It was not known whether an appeal would be taken.

The case was bitterly contested from a legal standpoint.

Mrs. John Snyder of El Paso was a guest of relatives and friends here the past week.

M. M. Bonds has returned from a visit in Tyler with relatives.

Clayton Dierr spent the week end in Fort Worth.

TURKEY DESERTS GREEKS IN MOST CRITICAL HOUR

Conquest of Europe was completed late Monday with the announcement that Bulgaria had arranged for the passage of German troops with the aid and consent of Turkey and Russia.

As a result of this diplomatic coup on the part of Adolf Hitler it was expected that Greece would soon be forced to surrender and lose all of the victories she was won in her successful battle against Italy.

It was not generally believed that it would be necessary for Germany to attack Greece. That small country would no doubt be forced to yield on threat of attack.

Mussolini who marched into Greece late in 1940 encountered resistance and his armies have been thrown back to the Adriatic in Albania. To the rescue has gone Adolf Hitler and while extricating his Axis partner he took occasion to take Yugoslavia and then to wrest from Turkey a neutrality which in the long run no doubt will be active participation along with Germany for conquest of the Suez and of the Mediterranean.

It has now become plain that Soviet Russia is a partner of Nazi Germany to own and to control the entire continent of Europe.

It was shown in this newspaper more than a year ago that the war is a struggle between two schools of thought in the world and Stalin and Hitler are one and the same.

The next development of international importance will be an understanding between Russia and Japan. This will be followed in a short time with both countries declaring war on England.

The next development on the European continent will be occupation of Spain and conquest of Gibraltar by the Germans. The Nazis will then put an army in North Africa and will proceed to blast the British fleet and England will be insulated from the Far East and from her Mediterranean empire.

These objectives were pointed out by news comments from the world capitals Tuesday.

The war had subsided into continued gains by the British in Africa and an exchange of bombing raids between England and Germany.

There was no comment from London on the pact between Bulgaria and Turkey which was deemed to insure Hitler's total conquest of Europe except that Turkey was forced by Russia to stand aside and see her neighbor Greece attacked and destroyed.

The Democracies again have been too late and too little. If the British

had used their sea power to force occupation of Soloniki and placed troops and equipment for an assault though the Balkans, however momentous this task may have been, Greece might have been saved. Now England has lost her chance to keep Turkey an ally and Greece must pay the price along with the British for an alliance that was unproductive.

J. M. DODSON FAMILY HOLD REUNION THURSDAY

On Thursday, February 13, 1941, the nine children of Mr. and Mrs. J. M. Dodson gathered at the family home in Rosebud for a family reunion, for the first time in twenty years. The following were present:

Mr. and Mrs. J. M. Dodson, Sr., Mrs. A. E. Kennedy, mother of Mrs. Dodson; W. H. Dodson of Waco; Mrs. E. L. Peed and family of Cameron; G. E. Dodson of Los Angeles, Calif.; Mrs. Theodore Henderson of Cameron; J. M. Dodson, Jr., and family of Rosebud; Leland Dodson and wife and Roy Dodson of Taylor; Wilson Dodson of Randolph Field; Miss LaVerne Dodson of Baylor University, Waco; and Edwin McLane and family of Cameron.

In addition to being a reunion of the family the occasion celebrated a birthday anniversary of Mrs. Theodore Henderson and was a gathering of five generations of the family. These were Mrs. A. E. Kennedy, great great grandmother; Mrs. J. M. Dodson, Sr., great grandmother; Mrs. E. L. Peed, grandmother; Mrs. Edwin McLane, mother; and Roy Moe McLane, son.

A shadow of disappointment was cast as all members of the family could not be present. Those absent were Mrs. W. H. Dodson and son, Chester of Waco; W. J. Wise, Jr., of Portal, Arizona, son of Mrs. E. L. Peed; and Mrs. G. E. Dodson and son Donnie of Los Angeles. Three children of Mr. and Mrs. J. M. Dodson, Jr., did not stay the full day because they wanted to keep their school records clear.

A touch of family pride was felt by all present for in the group of children of Mr. and Mrs. Dodson, Sr., there were two daughters who are public school teachers, two sons who were in the U. S. States Marine during the World War and now holding good positions, one son a successful farmer; two sons who are employed in business; one son in the service of Uncle Sam and one daughter, whose name is among the very small group of fifty-eight students of the entire student body to make the first semester honor roll.

An old fashion form of dinner was served, pictures were taken and all in all a very happy day passed quickly.

Lesikar, Leo Stecher, Henry Dakel and Steve Marek, Jr., received the cut prizes. Mrs. Matyastik was assisted in the serving by Mrs. Kalkbrenner and Mesdames Bergum and Laake. U. S. TELS JAPAN SHE MUST GET OUT OF AXIS

War in the Far East between Britain and Japan seemed near today as the Japanese looked upon British concentrations at Singapore as war play.

Royal Air Force bombing planes were flying into Singapore and Australian soldiers were pouring swiftly into that Far Eastern great naval base of England.

As a result of these moves on the part of the British, Japan was believed to be considering them as war like acts. It was said the Japanese had displayed considerable surprise over the apparent intention of the British to defend their Far Eastern empire.

The most sensational development of the day in Washington was a blunt warning to Japan by the United States telling that country that America will enter into no discussion

with Japan as long as the Japanese are members of the Rome-Berlin Axis.

Japan is linked in a military alliance with Germany and Italy and the United States will not discuss any phase of the Far Eastern question or anything to improve relations between the two countries as long as Japan is lined up with Hitler and Mussolini.

German troops today had begun the march on Bulgaria in the first occupation triumph since Turkey deserted Greece.

The Greeks are reported to have determined to fight to the end even if it means war with Germany.

In Albania the Italians were thrown back and the British were advancing on all fronts in Africa.

Hitler's influence on France was forecast today when a French spokesman said that war between England and France is almost inevitable.

Miss Maxine Akers of Baylor University was a week end visitor here.

Vegetable Laxative Makes Happy Friends

Here's a laxative that usually acts thoroughly as harsher ones but is a gentle persuader for intestines when used this way: A quarter to a half-teaspoonful of spicy, aromatic BLACK-DRAUGHT on your tongue tonight; a drink of water. There's usually time for a good night's rest, with a gentle, thorough action next morning relieving constipation's headaches, biliousness, sour stomach, bad breath.

BLACK-DRAUGHT is a splendid combination of vegetable ingredients, chief of which is an "intestinal tonic-laxative" that helps impart tone to lazy bowel muscles. It's economical. 25 to 40 doses: 25c.
